Please amend the title to read as follows:

---

[[ELANGATE]] ELONGATE MEMBER WITH INTERCONNECTED ROTATABLE  
PORTIONS

---

Appl. No. 10/089,717  
Amdt. dated August 13, 2003  
Reply to Office action of March 13, 2003

**Amendments to the Specification:**

Please replace the first full paragraph on page 4 with the following amended paragraph:

c2 The third plate member 22 includes a second substantially square shaped portion 30 provided with a substantially centrally disposed third aperture 32 and four fourth apertures 34 each of which is disposed adjacent a corner of the second square shaped portion 30. The third aperture 32 is of larger diameter than the second elongate portion 14. The fourth apertures ~~[[24]]~~ 34 are of similar diameter to the second apertures 26.

Please replace the second full paragraph on page 5 with the following amended paragraph:

c3 A plurality of sixth apertures 42 are provided within the first plate member 18. The sixth apertures 42 are of similar diameter to the fifth apertures ~~[[42]]~~ 40. The distance from each sixth aperture 42 to the centre of the first aperture 24 is substantially the same as the distance from the fifth apertures 40 to the centre of the cylindrical portion 28.

Please replace the fourth paragraph of page 5 with the following amended paragraph:

c4 In normal use, the elongate member 10 locates in a first orientation as shown in Figures 1 and 7 wherein the first and second elongate portions 12, 14 are substantially ~~[[parallel]]~~ co-axial to each other and aligned with each other, and the light source 11 is disposed at a location relatively remote from the base position 13.
